

The Curriculum

Accelerated Christian Education is built upon these five basic laws of learning:

- Students must be at levels where they can perform.
- Reasonable goals must be set.
- Students must be controlled and motivated.
- Learning must be measurable.
- Learning must be rewarded.

From its beginning, over 40 years ago, A.C.E. has held to these goals:

- A solid back-to-basics education program.
- A course of study individualized to meet the specific needs and learning capabilities of the student.
- A program incorporating character-building and wisdom principles.

Whether the student is a high achiever or a moderately paced learner, the A.C.E. educational process proceeds at the exact level determined by the child's ability.

Individualization makes it possible for each student to master the subject before moving on. Such mastery is the foundation upon which all future learning is built.

Biblical character training received as part of this learning experience prepares students to welcome and accept challenges and future opportunities that come their way.

Biblical values and concepts considered foundational to relationships and productive living, are conveyed throughout the curriculum in such a way as to become life-shaping influences.

Diagnostic Testing and Evaluation

Proper academic diagnosis is vital to the student's success. Students enrolled in Lighthouse Christian Academy are given diagnostic tests to determine skill and concept mastery. Advisors custom design a course of study from the test results for each individual student. Weak areas (gaps) are strengthened first; then the student continues, progressing at his achievement level.

The Independent Home School Option

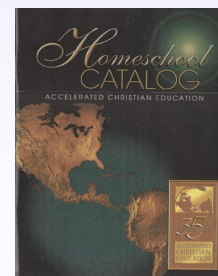

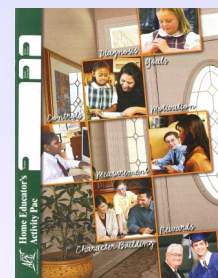

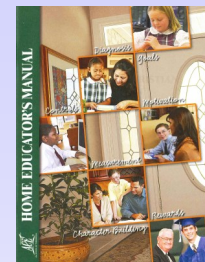

Accelerated Christian Education also offers support for independent home school educators. Autonomous home educators may wish to make their own selections from the extensive array of A.C.E. proven educational materials and manage their own home school administration. This program gives you complete control, if you desire, and allows you to:

- *Analyze* your child's diagnostic tests.
- *Determine* your child's curriculum needs.
- *Evaluate* your child's standardized test results.
- *Maintain* academic records yourself.
- *Issue* diploma at graduation from your home school.
